

### **Meet the Beasts 5/28/13 – 5/31/13 (no camp on May 27<sup>th</sup>)**

From birds to reptiles, we will learn what makes these animals unique. In this exciting day camp, we'll explore different animal characteristics and learn how scientists use these characteristics to group animals.

### **Home Sweet Habitat 6/3/13 – 6/7/13**

Habitats, ecosystems and biomes ... oh, my! This exciting day camp explores different habitats and the animals that call these places home. We'll even learn about some of the greatest animal builders, such as bees and beavers. Find out why there's no place like home!

### **Passport to Adventure 6/10/13 – 6/14/13**

Join us for an action-packed adventure as we go on an expedition around the world. From South America to Australia, we'll discover the world's wildlife and the unique adaptations that help animals survive in these places. No passport required!

### **Wildlife Warriors 6/17/13 – 6/21/13**

Are you ready to become a Wildlife Warrior? Here's your chance to get empowered and go green! From recycling to carbon footprints to endangered species, we'll learn about all of the little things we can do to make a difference and help our planet.

### **Primate Party 6/24/13 – 6/28/13**

Come monkey around with us all week long as we get to know these animal superstars! From prosimians to apes, learn about the amazing primates that inhabit the rainforests of Africa, Asia and South America and find out more about their talents.

### **Zoo Done It? 7/1/13 – 7/5/13 (no camp on July 4<sup>th</sup>)**

Are you ready to be a super Zoo sleuth and help us solve some mysteries? Here's your chance to test out your investigating skills! Join us as we venture through the Zoo to solve animal mysteries.

### **The Zoo Atlanta Games 7/8/13 – 7/12/13**

It's survival of the fittest in the animal world! From the fastest to the slowest, to the best leapers and hunters, we'll explore amazing animal abilities and why these abilities are important to their survival. We'll even see how your abilities compare to these animals.

**Creature Features 7/15/13 – 7/19/13**

Do you know the difference between a turtle and a tortoise? How about determining what an animal eats just by looking at its teeth? Investigate the wonderful world of animals. From their body coverings to their special adaptations, we'll take a look at why these features are helpful.

**Baby Boom 7/22/13 – 7/26/13**

Join us as we learn about baby animals, as well as some of Zoo Atlanta's newest additions! From giant panda cubs to gorilla babies, we'll learn about why these babies are important for the survival of their species.

**Tall Tails 7/29/13 – 8/2/13**

Animals can do some strange and fascinating things, but do vampire bats actually drink blood? Do ostriches really bury their heads in sand? Are there really unicorns? Join Zoo Atlanta as we separate fact from fiction and find out how some of these myths got started.

**Bio-Inspired Design 8/5/13 – 8/9/13**

What do owls and trains have in common? What about geckos and tape? Join us as we learn all about how animals have inspired some of the greatest inventions! You'll even get to create your own animal-inspired invention.
