Frequently Asked Questions

How are the campers grouped?

- Campers are grouped by age.

What is a typical camp day/week like?

- Safari Camp is a great opportunity to engage young explorers about the wild world around them and begin their journey of conservation stewardship. Through Zoo explorations, up-close animal encounters, STEAM based projects, hands-on science activities, environmental games and more, campers learn about attainable strategies and goals to combat environmental issues and are charged with finding simple ways that they can make a difference.
- While Zoo Atlanta is a great place to discover nature and wildlife, it is also important that campers have a chance to experience wildlife in a more naturalistic setting. Campers may travel out to Grant Park (which surrounds the Zoo) to participate in a variety of activities such as nature walks, environmental research and group team-building games. You will be notified during the welcome email prior to the beginning of the camp day/week to inform you of whether this experience will be a part of your camper's schedule.

Can my child be in the same group as his or her friend?

- With at least one week's notice, we can **try** to place friends together in the same group if they are of similar ages and you have stipulated this request on their registration under 'Buddy Request'.
- We do not make exceptions to the age requirements. All of our activities and lessons are age-appropriate. Placing children in the incorrect group can compromise the activities.

Who are the camp educators?

- Safari Camp educators are energetic, responsible and dependable, and have an enthusiasm for wildlife and children. They are selected based on experience working with children in a camp, school, or environmental education setting.
- Educators are college graduates or are currently enrolled in college or have equivalent experience in a related field. They are required to pass criminal background and drug test and complete an extensive educator training course prior to working with campers.

What is the camper/counselor ratio?

- We have one counselor to approximately 10 children in each group.

Do you allow medicine?

- Campers are not allowed to bring any medication, prescription or over the counter to camp. The only exception is an Epi-pen and an inhaler. If your child brings an Epi-pen or an inhaler, it needs to be clearly labeled with his/her name on it.
- If your child has severe allergies or conditions that require special attention, please make sure to note that on your child's camp health form.

Weather Cancellation Policy

- All Zoo Atlanta Education programs are rain or shine. However, camp programs may be cancelled due to inclement weather, in which case the Zoo will notify participants of the cancellation as soon as possible prior to the program. If this happens, a full refund will be issued for the cancelled day.
- Unless Zoo Atlanta cancels camp, there will be no refunds given.
